BENCH MANUFACTURING COMPANY, P.O. Box 66, Essex St. Sta., Boston, MA 02112
Telephone: (617) 436-3080

It has taken a great deal of time and testing to be able to offer to you the concept and reality of affordable quality Small Buildings.

When we decided to manufacture Small Buildings, our objective was to be able to design a custom Small Building to an individual's interests and needs while adapting new technologies and mass production processes to provide in fact, a building of substance, beauty and appropriate utility.

Those objectives have been achieved and we offer to you two sizes of Small Buildings: 6 x 8 and 12 x 14 of the finest design and materials; modular, if expansion is desired, through a system of interchangeable panels, adaptable to most any use.

We place great importance on our Small Buildings blending in and becoming an important additional asset to your property. In that regard, and as part of your purchase, we provide Landscape Architectural services. Each of our Small Buildings is esthetically unique unto itself.

For the past two years, we have concentrated on Architecture, materials, Landscape Architecture, craftsmanship and the utility of our Small Building Systems. The end result is an all-wood modular small building that will provide the pride of ownership which we feel you should expect from any addition to your property. Best of all, you can purchase our Small Buildings at affordable prices. If you are considering a Small Building for any of the following uses, or would like a Custom Building, write or telephone us about your requirements.

USES:

- | | |
|---------------------|-----------------------|
| • CUSTOM BUILDINGS | • BUS STOP |
| • BOAT HOUSE | • KENNEL |
| • SUMMER HOUSE | • WORK SHOP |
| • GARDEN BUILDING | ✓ • OFFICE AT HOME ✓ |
| • VACATION HOUSE | • 1 or 2 HORSE STABLE |
| • CABANA | • SMALL BARNs |
| • TOOL SHED | • GARAGES |
| • STORAGE SHED | • GUEST HOUSE |
| • INFORMATION BOOTH | • CHAPELS |
| • PLAY HOUSE | • UTILITY BUILDINGS |

ATTENTION TO DETAILS:

Craftmanship is something everyone talks about today, but few deliver.

Bench Small Buildings are fabricated from select materials. Our concern for quality Small Buildings goes far beyond the materials themselves. It starts with the Architecture, then the fabrication and the use of materials and then the adaptable possibilities for correct placement within your property. Our system of interchangeable panels permits swift and simple adaptation to other uses as well as installation.

Our Small Buildings are an evolution emanating from the design and manufacture of our other garden buildings. Provided are detailed assembly and installation drawings and custom services are available to you.

Some general specifications are listed below and we welcome your inquiry for specific application of our buildings relative to your needs.

SPECIFICATIONS:

PANEL COMPONENTS fabricated of high grade KD studs with exterior grade wood and rustic paneling.

JOIST fabricated of heavy duty 4" x 6" timbers.

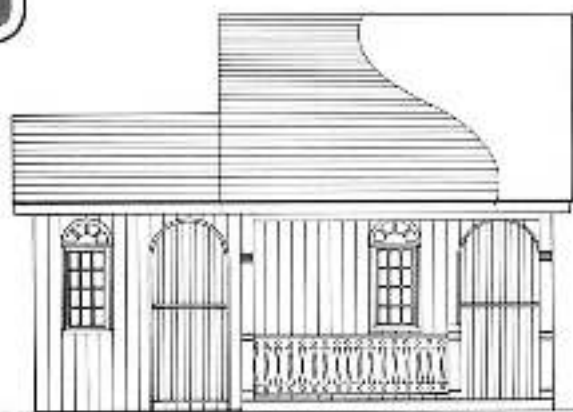

ROOF SYSTEM fabricated of KD joists with prefabricated #1 grade cedar shakes permanently bonded to a wood backing. Three different design shingles are available for your consideration.

SILLS AND DECKING fabricated of pressure-treated timbers. Treatment protects against insects and decay.

WINDOW AND DOORS supplied pre-hung with panel system, includes exterior trim.

HARDWARE. Nails, bolts, fasteners shall be galvanized and/or coated to prevent rust.

SMALL BUILDING SYSTEM. System consists of modular, interlocking plant fabricated panel components.

The B-77 - The Plaza Bench complements the B-70, B-75, B-76, or, can stand alone, especially in areas of restaurants, plazas, pools, etc. As you can see from the photo below, it complements our Picnic Table very well.

GAZEBO - The Gazebo is part of our modular garden building system that we created many ago. This is the first time we have offered detailed construction plans to our customers. Please inquire about this new option.

Summer House

Inside Summer House

Green House

Potting Shed

Storage Shed

We offer over 125 different benches. The above model #1876 was custom designed and fabricated for Boston's Public Gardens.

The BENCH MANUFACTURING COMPANY specializes in the design of quality and innovative products, and has been testing and refining a new concept in Garden Buildings. Our research indicates that most yard buildings are single purpose, expensive, and tend to become part of the permanent real estate.

We are now offering a unique and new Garden Building that consists of a basic structure accommodating a system of interchangeable panels which allows simple, swift and low cost conversion for other designs and purposes.

In addition, our Building can easily be relocated within your property, or moved along with you when you sell.

Using our system of Interchangeable Panels, we can offer you Gazebos, Summer Houses, Greenhouses, Storage Sheds, Potting Sheds, or Buildings that can be custom designed to meet your specific needs.

The basic Building is manufactured in 8' diameters with no limitations to size increases. Other accessories such as shelves, counters and benches are available.

Our Building comes with a simple and comprehensive set of assembly and installation drawings, so that anyone can assemble the building within a few hours. At a small additional charge, we will assemble the building for you, or relocate it on your property in the future. By removing the old panels, you can convert the building into a new system or call on us to do it for you.

Available to our customers is a Landscape Architect. Service at no additional charge. Financing is also available.

Call or write for our factory trained representatives to contact you.

*Copyright 1976

VEGETABLE/FLOWER GARDEN COMPLEX

This layout of our Flower/Garden Growing Complex was designed for a condominium. Although more elaborate than most home owners would require, it does indicate the type of design services available to our customers.

Presently, we offer the following products that can be incorporated into our designs:

- GAZEBOS
- POTTING SHEDS
- GREENHOUSES
- STORAGE SHEDS
- CABAÑAS
- SUMMER HOUSES
- CUSTOM GARDEN BUILDINGS TO YOUR SPECIFICATIONS
- COMPOST BINS
- WORK BENCHES
- COLD FRAMES
- GROWING BED-TABLES AT EITHER GROUND LEVEL OR 30" ABOVE THE GROUND
- WATER DISPLAY FOUNTAINS
- ARBORS
- BENCHES
- TABLES
- FENCING

Write to us for more details.

July 27, 1993

Mikhail Blinov
President
KIROVSKIY ZAVOD
St. Petersburg, RUSSIA
198097

Dear Mr. Blinov,

This letter is in addition to my earlier letter to you of July 13, 1993.

Initially our interest was in the conversion of your surplus tanks/artillery cannons to light poles. Now that I am getting a better understanding of both your impressive capabilities and your long term plant use objectives, I would like you to consider the following.

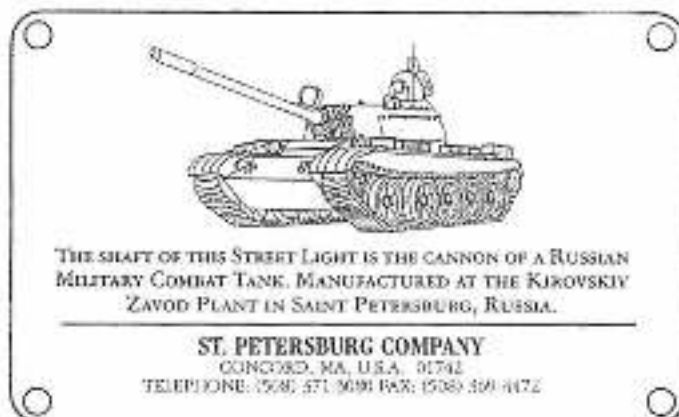

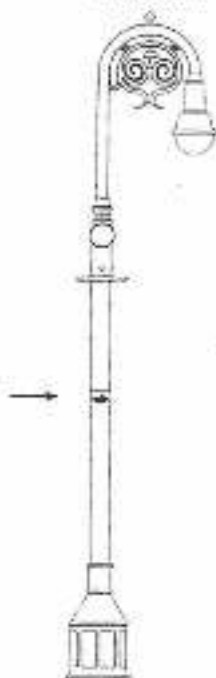

Let us initially establish our joint stock company on the basis of the cannon to light pole conversion manufacturing process and then move onto the broader range of manufacturing relating to site/street furniture as outlined in my July 13th letter.

Once, these products are established, there is a broader potential and that is the conversion of your large submarine manufacturing capability to a general transportation manufacturing facilities. Enclosed are photos that exhibit large and small scale applications.

I would like to express to you my personal appreciation for your openness and your cooperation.

Sincerely,

John R. Hill
Chairman

THE FAULKNER "TURN-KEY" SOLUTION

Faulkner's "Turn-Key" package is especially designed for cities, towns, colleges, universities, private schools and other non-profit organizations where our manufactured goods are an important part of American life. We offer interest rates beginning at the treasury rate and proceeding downward as the Turn-Key package increases in dollar value.

Typical interest rate examples are listed below.

- \$100,000.00 to \$500,000.00 Treasury Rate
- \$500,000.00 to \$1,000,000.00 Treasury Rate less .25%
- \$1,000,000.00 to \$5,000,000.00 Treasury Rate less .50%
- \$5,000,000.00 to \$10,000,000.00 Treasury Rate less 1%
- \$10,000,000.00 and up Negotiated Rate

We provide a "Turn-Key" finance program similar to other American companies in that we will offer both product and financing. Ford Motor Co. manufactures and finances their own vehicles. Sears sells product and financing. American Express provides travel and financing.

Our conditional sales package can be processed quickly, as we have a nationwide network of financial officers to work with you. A comprehensive proposal for your organization's review will be developed with no obligation on your part.

Please call 800-366-3080 for further information.

Sincerely,

John E. Hill
Chairman
Faulkner Group

Downtown & Sponsorship Programs

Downtown Sponsorship & Personalized banners are available. We work with Downtown associations around the country and many fund their banner programs through local business participation. The downtown association contacts local businesses to pay for the banner, brackets if necessary, and the installation of the banners. In exchange, their name is printed on the lower portion of the main banner, or on a separate hang-on banner.

Sponsorship can run yearly, seasonally, or perpetually. This program has been quite successful, has consistently resulted in greater demand than anticipated, and local business thrive on the recognition.

Hang-On Banners are appropriately named as they literally are attached to, and hang below, a main banner. This is a great place to print special dates, events, sponsor names, or anything you can imagine. They typically consist of one ink color and simple text. Logos and special text are available for an additional charge. Please call today for a quote.
